bath-living semicolonne

— semi-columns

Le semicolonne Bath-Living combinano funzione contenitiva e progettazione intelligente. Oltre a offrire spazio per riporre gli oggetti quotidiani, permettono l'integrazione di lavabo e bidet anche in punti tecnicamente sfavorevoli, grazie alla possibilità di celare le tubature all'interno della struttura. Una libertà compositiva che trasforma ogni vincolo impiantistico in una nuova opportunità progettuale.

Bath-Living semi-columns combine storage functionality with intelligent design. In addition to providing space for everyday essentials, they allow for the integration of washbasins and bidets even in technically challenging areas, thanks to internal structures that conceal piping. A design freedom that transforms technical constraints into new creative opportunities.

totem apollo
— apollo totem

Totem Apollo esprime l'essenza del Bath-Living attraverso una struttura autoportante che combina estetica e funzionalità. Oltre a offrire vani contenitivi integrati, il totem ospita soluzioni tecniche evolute come scarichi a pavimento, miscelatori a parete e distanziali metallici che ottimizzano l'installazione. Un sistema compatto che organizza, arreda e valorizza l'ambiente con linee essenziali e composizioni visivamente leggere.

Totem Apollo embodies the essence of Bath-Living with a freestanding structure that merges aesthetics and functionality. In addition to integrated storage compartments, it accommodates advanced technical solutions such as floor drains, wall-mounted mixers, and metal spacers designed to optimize installation. A compact system that organizes, furnishes, and enhances the space with essential lines and a visually light composition.

Top Marmotek

Una soluzione essenziale che valorizza la purezza formale del lavabo Apollo grazie allo scarico a pavimento e al rubinetto a terra, mantenendo inalterata la pulizia estetica della composizione.

An essential solution that enhances the formal purity of the Apollo washbasin, thanks to the floor drain and freestanding tap, while preserving the clean aesthetic of the composition.

Il miscelatore a muro e lo scarico a terra, enfatizzano la leggerezza visiva del lavabo Apollo, liberando la composizione da elementi visibili e favorendo linee nette e minimali.

The wall-mounted mixer and floor drain emphasize the visual lightness of the Apollo washbasin, freeing the composition from visible elements and promoting clean, minimal lines.

Il distanziale metallico di 5 cm, aggiunge profondità visiva e tecnica alla composizione, permettendo l'installazione dello scarico a parete, per una resa architettonica precisa.

The 5 cm metal spacer adds visual and technical depth to the composition, allowing for wall drain installation and delivering a precise architectural effect.

Il distanziale metallico di 12 cm, diventa un elemento tecnico-estetico di rilievo: permette l'installazione del miscelatore, aggiungendo carattere e versatilità al design.

The 12 cm metal spacer becomes a prominent technical-aesthetic feature: it enables mixer installation while adding character and versatility to the design.

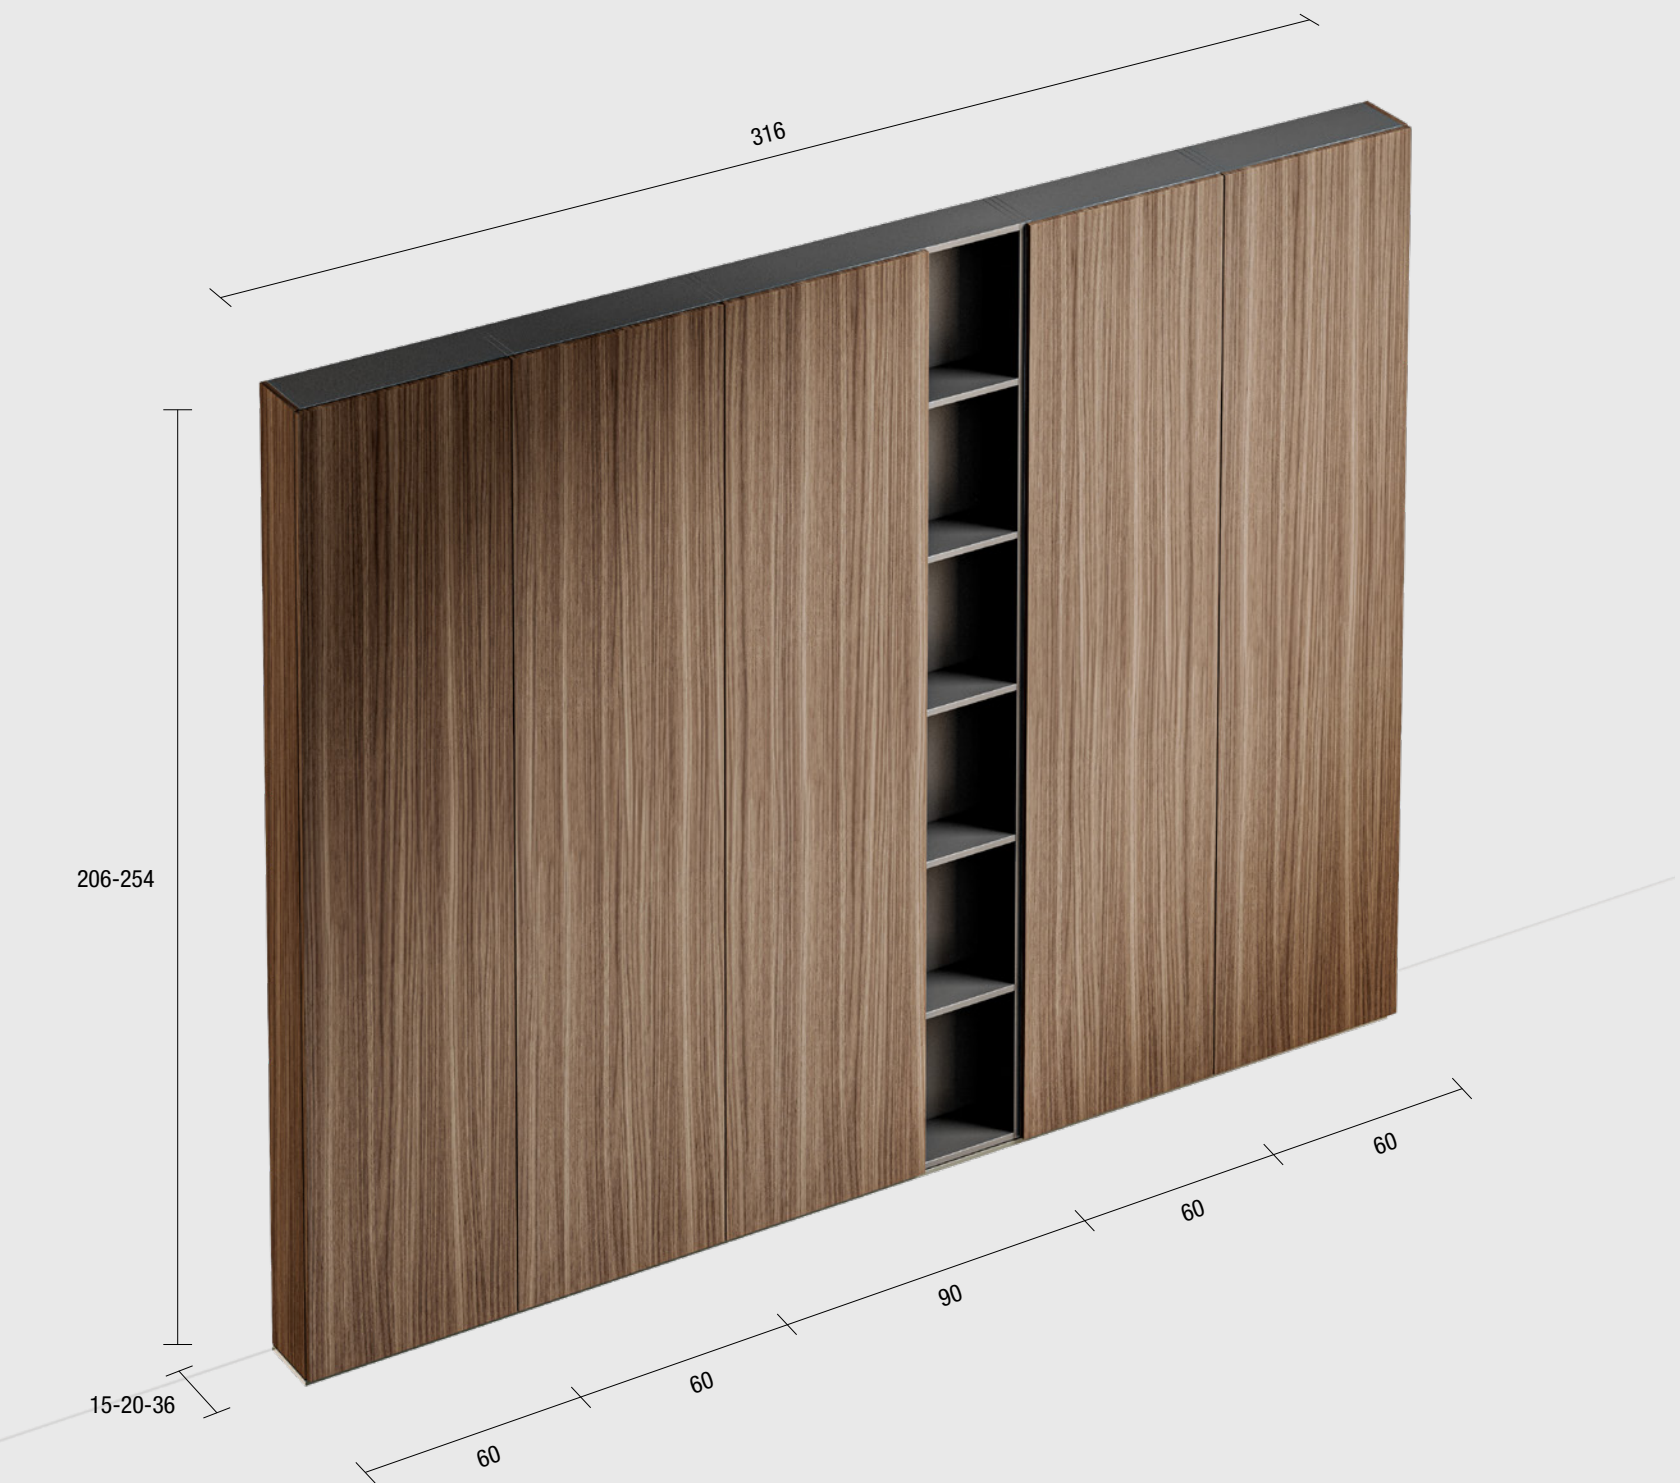

Il lavabo Apollo è disponibile nelle finiture Marmotek, Stone Color e Grit Stone, per una personalizzazione completa e coordinata.

The Apollo washbasin is available in Marmotek, Stone Color, and Grit Stone finishes, offering full and coordinated customization.

bath-living
colonne
— columns

Le colonne Bath-Living sfruttano lo sviluppo verticale per offrire ampio spazio contenitivo, ottimizzando ogni centimetro disponibile. Disponibili con ante o vani a giorno, si integrano con naturalezza nei contesti ibridi tra bagno, zona notte e cabina armadio, contribuendo a creare composizioni ordinate e visivamente coerenti.

Bath-Living columns take advantage of vertical development to provide generous storage while optimizing every available centimeter. Available with doors or open compartments, they integrate seamlessly into hybrid spaces between the bathroom, bedroom, and walk-in closet, contributing to clean, cohesive compositions.
